

# No Pain. Quick Change

**Our Switch Kit.** A simple way to move your checking account to First Community Bank

## **You say the word. We do the work.**

If you've ever moved your checking account to a new bank, the experience probably left you with one firm conviction: never again. We don't blame you. Because if you have any automatic payments or direct deposits linked to your account, switching can be nothing but one big hassle.

What if the hassle wasn't yours? What if you didn't have to make any phone calls or write any letters? What if all you had to do was complete a few simple forms and let us handle everything else?

That's the idea behind this First Community Bank Switch Kit. Here's how it works:

## **Make your move . . . in three easy steps.**

### **Step 1: Open a First Community Bank checking account.**

- Give us a call at 270-653-4301 and talk to one of our friendly employees or stop in at our convenient location.

### **Step 2: The Switching Process – Let us walk you through moving your automatic payments and direct deposits.**

- We will complete all the necessary forms for you. You don't have to worry about any of those details. All we need from you is a list of names, addresses, telephone numbers, account numbers and amounts. Don't worry if you don't have all the information at your fingertips, we will get that for you. A copy of a most recent bank statement would be helpful and move the process along a little quicker.
- When we have completed all the forms, we will mail them to you for your signature. Once you receive them just sign and return them in the enclosed postage free envelope.

### **Step 3: When to close your account.**

- We will monitor your new account to make sure that all of your automatic payments and direct deposits have made the switch to your new First Community Bank checking account.
- As soon as all of your automatic payments and direct deposits have been switched, we will notify you that your old account will be closed.

So there you have it. No pain. Quick Change.

After all, if we want your business, shouldn't we do all the work for you?

**Make the switch to First Community Bank. Now there's no reason not to.**
